## Summary

---

I am a fourth-year undergraduate specializing in Information Technology at SLIIT. I bring a strong foundation in modern web technologies and a deep enthusiasm for both frontend and UI/UX development. My technical expertise includes working with JavaScript, React, and the MERN stack, as well as a strong interest in UI/UX design using Figma. I am seeking an internship opportunity to apply my skills and gain hands-on experience in a dynamic tech environment.

## Education

---

Sri Lanka Institute of Information Technology ( 2022 July-2026 July)  
BSc (Hons) in Information Technology Specializing in Information Technology

Anuruddha Central College-Lunuwila  
G.C.E Advanced Level - 2019  
G.C.E Ordinary Level - 2015

## Skills

---

### TECH SKILLS

Html,CSS,Javascript,React,Angular,C++,MySQL,figma,photoshop,VS code,Android studio,PHP

### SOFT SKILLS

Teamwork|Quick learner|Leadership|Effective Communication|Critical Thinking

## Projects

---

[FinanceFusion](#) | **Technologies:-Next.js,shadCN,Tailwind CSS,Node.js,Prisma ORM,MongoDB,Zod,Open Ai 3.0**

FinanceFusion is a web-based financial management system with an AI-powered chatbot for seamless income and expense tracking. Built with Next.js and Prisma ORM, it offers AI-driven insights, automated reports, secure data storage, and PDF export capabilities.

[Private Institute Management](#) | **Technologies:-MERN Stack**

Developed a full-stack web application for Student Management,Course registration and performance tracking.Key features include user authentication,real-time updates and an intuitive interface,enhancing technical and project management skills.

### **Online Event Planning system | Technologies:-Java MVC Architecture**

Designed and developed a web application for efficient event management, integrating package management, reservation handling, and account management. Enhanced the event organization process by leveraging a modular MVC architecture, ensuring improved maintainability and scalability.

### **AirLine Ticket Reservation System | Technologies:-HTML,CSS,PHP,MySQL**

Created an intuitive flight booking web application with features such as flight search, seat selection, and secure booking. Utilized PHP for server-side logic and dynamic content rendering to enhance user experience and functionality.

### **Task Manager | Technologies:-KOTLIN**

Developed a feature-rich application using Kotlin, enabling users to write and store notes, create tasks, and manage their to-do lists efficiently

## **Certificates**

---

### **Front-End Web Development**

Issued by University of Moratuwa |Verified by University of Moratuwa

### **Front End Development**

Issued by Great Learning Academy

### **UI/UX for Beginners**

Issued by Great Learning Academy

### **Design App**

Issued by Great Learning Academy

## **REFEREES**
